

AN INTELLIGENT EVOLUTION

For years **Radio Frequency (RF) & Microneedling** have been proven modalities for progressive, minimally invasive skin rejuvenation.

Now Advanced Peptides, Growth Factors and Cytokines enable immunostimulative products to amplify results.

A combination of Surface & Deep Tissue RF is a safe and effective way to stimulate improvement in your skin.

TOTAL FACIAL RF™ is a synthesis of 5 well-known modalities, combining the stimulation of RF with microneedling, and advanced infusion of peptides, growth factors and cytokines, both in the clinic and at home.

Total Facial RF is the next step in treating aging skin. It's a giant leap forward in protecting and maintaining a vibrant, healthy, youthful appearance.

TOTAL FACIAL RF™ is the best! The treatment feels so stimulating! I was happy with how I looked just a few days after the treatment. Now I use the serum and applicator at home just like my doctor recommended, and my husband tells me I'm looking better than ever! He never notices anything! But he noticed this!" - J. Fischer, Houston, TX

What can I expect during my TOTAL FACIAL RF™?

- We'll discuss your skin and your goals.
 - Then 5 proven modalities are custom tuned for your skin.
 - A Gentle cleanse and disinfection.
1. Application of Surface RF firms and prepares the skin.
 2. Then a Stem Cytokine based, Immuno-Stimulative hyaluronic acid product is rolled on.
 3. Microneedles stimulate Stem Cell Gene Expression while delivering the product to the vital tissues.
 4. A Deeper application of RF clears out the old, and prompts new collagen production.
 5. The Livra Wand, needle tip and Livra products are used at home to maintain and amplify long lasting anti-aging and skin rejuvenation results!
 6. Recovery involves possible minor bruising and a few days of mild redness and swelling. Makeup may be applied within 2 hours!

TOTAL FACIAL RF™

Our Cosmeceutical formulations are a gentle but potent weapon against aging and sun damaged skin.

TOTAL FACIAL RF™ incorporates the latest in safe, effective topical Stem Cell stimulation with microneedling and RF for toning, firming, clarification and better resistance to premature aging.

It only takes about an hour, and it works!

TOTAL FACIAL RF™ can improve your skin with just one treatment!

We may recommend a skin specific series of treatments that will optimize results and help you take control of defending against the aging process and **repairing damaged skin!**

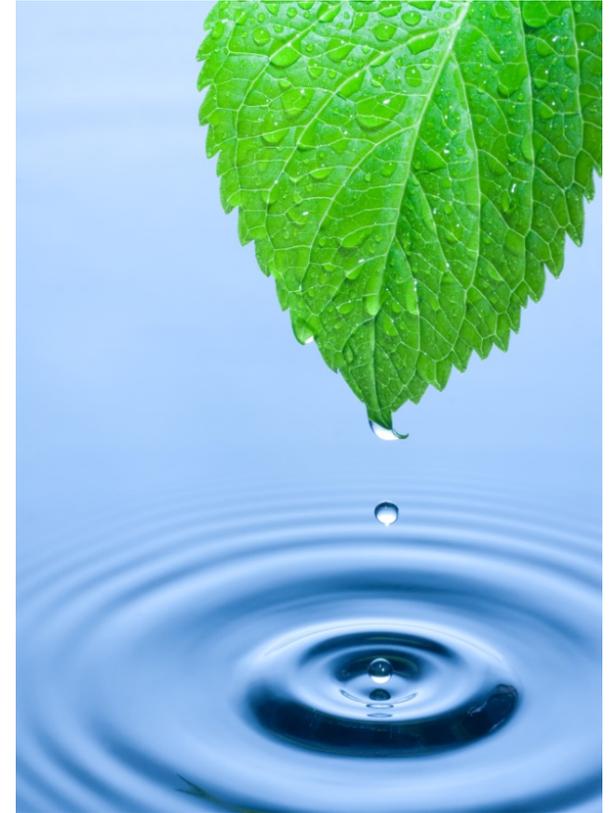

Ask our staff about a TOTAL FACIAL RF™ consultation to **determine** the best treatment plan to protect, refresh, and rejuvenate your skin **today!**
